TEACHERS' DAY MESSAGE

The destiny of a Nation is decided in the class rooms' remarked Dr Kothari in his monumental Kothari Commission report in 1964-66. This is not an empty statement and verily it is EDUCATION that plays a pivotal role in the development and prosperity of a Nation. In today's scenario where our youngsters need good role models, there could be no other person except the teacher to be the best role models for our younger generation. Teacher competency not only is confined to the ability to transact the curriculum in the classroom, evaluate and conduct other school related activities, but also to provide emotional support and guide the child to the path of righteousness. Academic brilliance alone is not going to help a student but the youngster has to blossom into an emotionally intelligent individual to tide over all the challenges life throws on them.

It is the sacred duty of every teacher to have this larger perspective and work towards a better world free of ignorance, poverty, societal discord and crime.

I wish all the very best to all the teachers of the world, and Kendriya Vidyalayas in this auspicious day and let us march towards a glorious future.

Jai Hind!

  
(S.M. Saleem)  
Deputy Commissioner
